		Car radio with integrated CD Changer, compatible with Ford Blue-tooth/VoiceControl unit	CDX-FC214J.EUR	4M5T-18C815-C*

- As shown in the picture below, the Ford and Sony part numbers (1 & 4) can be found on the label affixed to the side of the unit. Additional information like the serial number (2) and the model (3) can also be found.
- Only Ford Authorized Repairers can access this label by extracting the unit from the dashboard. The end customer does not have the correct tools to do this.
- The final letter of the Ford part number represents the unit suffix (replaced by "*" in the overview table). This letter may differ from one unit to another. All other digits, as described in the above overview table, remain identical for each type of unit.

Example on picture below: Ford part number: 3S7T-18C815-DE: => Suffix: E.

Label position on the unit
